PROFILE

A proactive Java Developer with a solid foundation in Java programming and a passion for software development. Excited to contribute to impactful projects while continuously enhancing technical skills and learning from industry professionals.

EXPERIENCE

Ascox Technosoft Solution Pvt Ltd Aug 2024- Nov 2025
Java Full Stack Developer

A Java Full Stack involves learning and working on both front-end and back-end development. You'll gain hands-on experience with Java, web technologies, databases, and frameworks to build complete web applications

SBL Knowledge Services 2020-2021
Indexing Operator
1 years of experience in indexing project (BPO)

PROJECTS

E-Commerce website :

An E-Commerce website built with HTML, CSS, and Bootstrap for a responsive front-end, using JSP and Servlets for server-side logic. MySQL is utilized for secure storage and management of user and product data

Medical Management System:

Designed a Medical Management System to simplify medical operations with a responsive front-end using HTML, CSS, and Bootstrap. The back-end, built with JSP and JDBC, ensures efficient server-side processing and seamless database management

DECLARATION

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief
